Martin Luther Catholic Dissident

Frank Longford often said during his long life that he would like his epitaph to be 'the outcast's outcast'. It summed up a long career as a politician, writer and campaigner on social and prison policy. This biography reveals one of the twentieth century's most intriguing figures.

In this new and substantially expanded Third Edition, Philip Jenkins continues to illuminate the remarkable expansion of Christianity in the global South--in Africa, Asia, and Latin America. Drawing upon the extensive new scholarship that has appeared on this topic in recent years, he asks how the new Christianity is likely to
affect the poor, among whom it finds its most devoted adherents. How should we interpret the enormous success of prosperity churches across the Global South? Politically, what will be the impact of new Christian movements? Will Christianity contribute to liberating the poor, to give voices to the previously silent, or does it threaten only to bring new kinds of division and conflict? Does Christianity liberate women, or introduce new scriptural bases for subjection? Acclaim for previous editions of The Next Christendom: Named one of the Top Religion Books of 2002 by USA Today Named One of the Top Ten Religion Books of the Year by Booklist (2002) Winner of the Christianity Today Book Award in the category of "Christianity and Culture" (2002) "Jenkins is to be commended for reminding us, throughout the often gripping pages of this lively work that the history of Christianity is the history of innovative--and unpredictable--adaptations." --The New York Times Book Review "This is a landmark book. Jenkin's thesis is comprehensively researched; his analysis is full of insight; and his projection of the future may indeed prove to be prophetic." --Baptist Times "A valuable and provocative look at the phenomenon widely ignored in the affluent North but likely to be of enormous importance in the century ahead. The Next Christendom is chillingly realistic about the relationship between Christianity and Islam." --Russell Shaw, Crisis "If the times demand nothing less than a major rethinking of contemporary global history from a Christian perspective, The Next Christendom will be one of the significant landmarks pointing the way." --Mark Noll, Books & Culture

Talk of the Devil has become distinctly unfashionable. Our sceptical age has pensioned off Satan, for centuries the face and name put to the abstract reality of evil. However, the creation of Popes, archbishops and priests will not so easily accept his fate, and Satan continues to serve as a metaphor for evil throughout society. His scaly black skin, horns, cloven hoof and red eyes have become embedded in popular psyche. In The Devil: A Biography, Peter Stanford traces the development of the character and role of Satan through the ages and examines how we tackle evil today.
'A compelling biography of one of the greatest men of the modern age. Stanford is particularly brilliant on the
tensions inside Luther's private and spiritual life. This is a very fine book, written with a flourish.' Melvyn

The 31st of October 2017 marks the 500th anniversary of Martin Luther pinning his 95 'Theses' - or
reform proposals - to the door of his local university church in Wittenberg. Most scholars now agree that the
details of this eye-catching gesture are more legend than hammer and nails, but what is certainly true is that on
this day (probably in a letter to his local Archbishop in Mainz), the Augustinian Friar and theologian issued an
outspokenly blunt challenge to his own Catholic Church to reform itself from within - especially over the sale of
'indulgences' - which ultimately precipitated a huge religious and political upheaval right across Europe and
divided mainstream Christianity ever after. A new, popular biography from journalist Peter Stanford, looking
at Martin Luther from within his Catholic context, examining his actual aims for Catholicism as well as his
enduring legacy - and where he might fit within the church today. 'Peter Stanford makes the life of Luther into
a thrilling narrative, told from a modern Catholic perspective' Antonia Fraser

A thought-provoking reflection on the practice and history of pilgrimage, and a compelling exploration of its relevance today.

Although the connection between the invention of printing and the Protestant Reformation of the sixteenth century has long been a scholarly commonplace, there is still a great deal of evidence about the relationship to be presented and analysed. This collection of authoritative reviews by distinguished historians deals with the role of the book in the spread of the Reformation all over the continent, identifying common European experiences and local peculiarities. It summarises important recent work on the topic from every major European country, introducing English-speakers to much important and previously inaccessible research.
In this fascinating historical and cultural biography, writer and broadcaster Peter Stanford deconstructs that most vilified of Bible characters: Judas Iscariot, who famously betrayed Jesus with a kiss. Beginning with the gospel accounts, Peter explores two thousand years of cultural and theological history to investigate how the very name Judas came to be synonymous with betrayal and, ultimately, human evil. But as Peter points out, there has long been a counter-current of thought that suggests that Judas might in fact have been victim of a terrible injustice: central to Jesus' mission was his death and resurrection, and for there to have been a death, there had to be a betrayal. This thankless role fell to Judas; should we in fact be grateful to him for his role in the divine drama of salvation? 'You'll have to decide,' as Bob Dylan sang in the sixties, 'Whether Judas Iscariot had God on his side'. An essential but doomed character in the Passion narrative, and thus the entire story of Christianity, Judas and the betrayal he symbolises continue to play out in much larger cultural histories, speaking as he does to our deepest fears about friendship, betrayal and the problem of evil. Judas: the ultimate traitor, or the ultimate scapegoat? This is a compelling portrait of Christianity's most troubling and mysterious character.

Hubert Anvil is a 10 year old boy blessed with the voice of an angel. The Church hierarchy decrees that Hubert should be turned into a castrato - an alteration that could bring Hubert fame and fortune, but would also cut him off from an adult world he is curious to discover. In a dystopian world where Martin Luther never reformed and where the Holy Office's power is absolute, where will Hubert turn if he decides to defy their wishes?

For the first time since the Profumo scandal of the 1960s, the Astors’ own version of the events at Cliveden is told. Peter Stanford has been granted unprecedented access to Lady Astor, her private papers and her friends, as well as to many family members and key players in the drama.
Published to mark the 500th anniversary of the events of 1517, Reformation Divided explores the impact in England of the cataclysmic transformations of European Christianity in the sixteenth and seventeenth centuries. The religious revolution initiated by Martin Luther is usually referred to as 'The Reformation', a tendentious description implying that the shattering of the medieval religious foundations of Europe was a single process, in which a defective form of Christianity was replaced by one that was unequivocally benign, 'the midwife of the modern world'. The book challenges these assumptions by tracing the ways in which the project of reforming Christendom from within, initiated by Christian 'humanists' like Erasmus and Thomas More, broke apart into conflicting and often murderous energies and ideologies, dividing not only Catholic from Protestant, but creating deep internal rifts within all the churches which emerged from Europe's religious conflicts. The book is in three parts: In 'Thomas More and Heresy', Duffy examines how and why England's greatest humanist apparently abandoned the tolerant humanism of his youthful masterpiece Utopia, and became the bitterest opponent of the early Protestant movement. 'Counter-Reformation England' explores the ways in which post-Reformation English Catholics accommodated themselves to a complex new identity as persecuted religious dissidents within their own country, but in a European context, active participants in the global renewal of the Catholic Church. The book's final section 'The Godly and the Conversion of England' considers the ideals and difficulties of radical reformers attempting to transform the conventional Protestantism of post-Reformation England into something more ardent and committed. In addressing these subjects, Duffy shines new light on the fratricidal ideological conflicts which lasted for more than a century, and whose legacy continues to shape the modern world.

Following 9/11, increased attention has been given to the place of religion in the public sphere. Across the world, Law and Religion has developed as a sub-discipline and scholars have grappled with the meaning and effect of legal texts upon religion. The questions they ask, however, cannot be answered by reference to Law alone therefore their work has increasingly drawn upon work from other disciplines. This Research Handbook assists
by providing introductory but provocative essays from experts on a range of concepts, perspectives and theories from other disciplines, which can be used to further Law and Religion scholarship.

Interviews with people of faith including: Sara Maitland | Sister Wendy Beckett | Delia Smith | The Revd Richard Coles | Dermot O'Leary | Cherie Blair | Archbishop Desmond Tutu | Bronwen Astor | Amos Oz | Nick Cave Peter Stanford has been interviewing people of faith during his thirty-five years as a journalist at national papers including the Daily Telegraph, the Independent and The Guardian, as well as for the church press. What fascinates him in such conversations is how creating a space to talk unguardedly about faith unlocks so much more: what shaped and continues to shape the public and private lives of high-profile names; how those values connect with the work they are best known for; and why they believe the search for faith makes them who they are. This collection of the best of his interviews - some with household names, others with those not so immediately familiar, but all people of achievement with a resonant story to tell - aims to lift the lid on a topic that has become increasingly marginalised in the public square of our increasingly secular and sceptical society, where to 'do God' can feel like breaking a taboo. Put together, the 44 subjects collectively demonstrate that, rather than being all about doctrine and dogma, there are as many ways of exploring faith as there are individuals currently doing it. These intriguing interviews with activists, writers and artists, politicians, rebels and those who have taken vows will appeal to committed believers, those on the fringes of faith, and those who look in from the outside with curiosity.

SHORTLISTED FOR THE WOLFSON HISTORY PRIZE 2017 SHORTLISTED FOR THE ELIZABETH LONGFORD PRIZE 2017 'A magnificent study of one of history's most compelling and divisive figures' Richard J. Evans When Martin Luther nailed a sheet of paper to the church door of a small university town in 1517, he set off a process that changed the Western world for ever. Within a few years Luther’s ideas had spread like wildfire. His attempts to reform Christianity by returning it to its biblical roots split the Western Church, divided Europe and polarised people’s beliefs, leading to religious persecution, social unrest and war; and in the long run his ideas would help break the grip of religion on every sphere of life. Yet Luther was a deeply flawed human being: a fervent believer tormented by spiritual doubts; a prolific writer whose translation of the Bible would shape the German language yet whose attacks on his opponents were vicious and foul-mouthed; a married ex-monk who liberated human sexuality from the stigma of sin but who insisted that women should know their place; a religious fundamentalist, Jew-hater and political reactionary who called ‘for the private and public murder of the peasants’ who had risen against their lords in response to his teaching. And perhaps surprisingly, the man who helped create in the modern world was not modern himself: for him the devil was not a figure of speech but a real, physical presence. As an acclaimed historian, Lyndal Roper explains how Luther’s impact can only be understood against the background of the times. As a brilliant biographer, she gives us the flesh-and-blood figure. She reveals the often contradictory psychological forces that drove Luther forward and the dynamics they unleashed, which turned a small act of protest into a battle against the power of the Church. A New Statesman, Spectator, History Today, Guardian and Sunday Times Book of the Year

Catholicism - an Introduction is a comprehensive guide to the history, key beliefs and practices of the Catholic faith.
For centuries following the spread of Islam, the Middle East was far ahead of Europe. Yet, the modern economy was born in Europe. Why was it not born in the Middle East? In this book Jared Rubin examines the role that Islam played in this reversal of fortunes. It argues that the religion itself is not to blame; the importance of religious legitimacy in Middle Eastern politics was the primary culprit. Muslim religious authorities were given an important seat at the political bargaining table, which they used to block important advancements such as the printing press and lending at interest. In Europe, however, the Church played a weaker role in legitimizing rule, especially where Protestantism spread (indeed, the Reformation was successful due to the spread of printing, which was blocked in the Middle East). It was precisely in those Protestant nations, especially England and the Dutch Republic, where the modern economy was born.

THE EXTRAORDINARY STORY OF THE ENGLISH WOMAN WHO FOOLED THE VATICAN. The legend of Pope Joan - the woman who, dressed as a man, headed the Catholic church in the early ninth century - has always been a subject of fascinated speculation but rarely, until now, the subject of serious research. As the future over women in the catholic priesthood continues, and the Church, which once took her story as gospel, now tries to play down the rumours, it is time for a reappraisal. Here Peter Stanford, author of The Devil: A Biography, reveals what can, and cannot, be known of this incredible story, and of the extraordinary woman behind it. In this fascinating account, ranging from secret histories to conspiracy theories, medieval carvings to tarot cards, women priests to cross-dressing clerics, and from romantic fiction to hard facts, he delivers a major study of historical detective work.
Pope Francis, Politics and the Mabanta Boy is Sheka Tarawalie’s autobiography tracing his early life in Sierra Leone, through imprisonment and being declared a ‘wanted man’, before his exile to the UK. The book also remembers his political appointment. Working through continual conflict and confrontation with his government colleagues and the President who appointed him, Sheka still managed to be within the system for several years and at the same time make landmark inputs. In addition – while recounting the circumstances of his meeting with Pope Francis at the Vatican in his official capacity – Sheka delves into the history of the Church, the powers of the Pope, the child sex abuse scandals – even the historical ‘sins’ of the Crusades, the Transatlantic slave trade and the sale of indulgences which led to the Reformation. A book that is likely to stir debate, Pope Francis, Politics and the Mabanta Boy goes on to confront the many delicate issues around contemporary Islamic fundamentalism, Al Qaeda and Islamic State.

'An intriguing exploration of the many roles that angels have played in spiritual life.' - The Sunday Times: Nick Rennison 'In a 2016 poll, one in 10 Britons claimed to have experienced the presence of an angel, while one in three remain convinced that they have a guardian angel. These are huge numbers and mean that, on some counts, angels are doing better than God.' In the secular, sceptical, post-Christian world of the West, continuing faith in angels is both anomaly and comfort. But what exactly are angels, and why have so many in different times and contexts around the globe believed in them? What is their history and role in the great faiths and beyond their walls? Are angels something real, a manifestation of divine concern? Or part of the poetry of religion? And can they continue to illuminate a deeper truth about human existence and the cosmos? These are not new questions. They have been asked over millennia, right up to the present day, as writer, journalist and broadcaster Peter Stanford explores in Angels, his latest investigation into the history, theology and cultural significance of religious ideas. 'There is no better navigator through the space in which art, culture and
spirituality meet than Peter Stanford' Cole Moreton, Independent on Sunday

'A heavenly book, elegant and thoughtful. Get one for yourself and one for the church-crawler in your life!' Lucy Worsley Christianity has been central to the lives of the people of Britain and Ireland for almost 2,000 years. It has given us laws, customs, traditions and our national character. From a persecuted minority in
Roman Britannia through the 'golden age' of Anglo-Saxon monasticism, the devastating impact of the Vikings, the alliance of church and state after the Norman Conquest to the turmoil of the Reformation that saw the English monarch replace the Pope and the Puritan Commonwealth that replaced the king, it is a tangled, tumultuous story of faith and achievement, division and bloodshed. In If These Stones Could Talk Peter Stanford journeys through England, Scotland, Wales and Ireland to churches, abbeys, chapels and cathedrals, grand and humble, ruined and thriving, ancient and modern, to chronicle how a religion that began in the Middle East came to define our past and shape our present. In exploring the stories of these buildings that are still so much a part of the landscape, the details of their design, the treasured objects that are housed within them, the people who once stood in their pulpits and those who sat in their pews, he builds century by century the narrative of what Christianity has meant to the nations of the British Isles, how it is reflected in the relationship between rulers and ruled, and the sense it gives about who we are and how we live with each other. 'There is no better navigator through the space in which art, culture and spirituality meet than Peter Stanford' Cole Moreton, Independent on Sunday

In this 'thrilling, . . . profoundly important book' (Christopher Hart, Sunday Times) and Sunday Times Top Ten Bestseller, the acclaimed author of Rubicon gives a panoramic-and timely-account of the rise of Islam In the 6th century AD, the Near East was divided between two great empires: the Persian and the Roman. A hundred years on, and one had vanished for ever, while the other was a dismembered, bleeding trunk. In their place, a new superpower had arisen: the empire of the Arabs. So profound was this upheaval that it spelled, in effect, the end of the ancient world. But the changes that marked the period were more than merely political or even cultural: there was also a transformation of human society with incalculable consequences for the future. Today, over half the world's population subscribes to one of the various religions that took on something like their final form during the last centuries of antiquity. Wherever men or women are inspired by belief in a single god to think or behave in a certain way, they bear witness to the abiding impact of this extraordinary, convulsive
age - though as Tom Holland demonstrates, much of what Jews, Christians and Muslims believe about the origins of their religion is open to debate. In the Shadow of the Sword explores how a succession of great empires came to identify themselves with a new and revolutionary understanding of the divine. It is a story vivid with drama, horror and startling achievement, and stars many of the most remarkable rulers ever seen. 'A compelling detective story of the highest order, In the Shadow of the Sword is also a dazzlingly colourful journey into the world of late antiquity. Every bit as thrilling a narrative history as Holland's previous works, In the Shadow of the Sword is also a profoundly important book. It makes public and popular what scholarship has been discovering for several decades now; and those discoveries suggest a wholesale revision of where Islam came from and what it is' (Christopher Hart, Sunday Times)

Martin Luther remains a popular, oft-quoted, referenced, lauded historical figure. He is often seen as the fulcrum upon which the medieval turned into the modern, the last great medieval or the first great modern; or, he is the Protestant hero, the virulent anti-Semite; the destroyer of Catholic decadence, or the betrayer of the peasant cause. An important but contested figure, he was all of these things. Understanding Luther's context helps us to comprehend how a single man could be so many seemingly contradictory things simultaneously. Martin Luther in Context explores the world around Luther in order to make the man and the Reformation movement more understandable. Written by an international team of leading scholars, it includes over forty short, accessible essays, all specially commissioned for this volume, which reconstruct the life and world of Martin Luther. The volume also contextualizes the scholarship and reception of Luther in the popular mind.

A thought-provoking reflection on the practice and history of pilgrimage, and a compelling exploration of its relevance today. Pilgrimage, a global ritual embraced by nearly all faiths, is one of civilization’s most enduring traditions. In this compelling book, author and journalist Peter Stanford reflects on the reasons people have walked along the same sacred paths through the ages. Through this history, Stanford explores how the
experiences of the first pilgrims to Jerusalem, Mecca, and Santiago de Compostela compare to the millions of people who embark on life-changing physical and spiritual journeys today. Pilgrimage traverses sacred landscapes around the world, from the Basilica of Our Lady of Guadalupe in Mexico City to the monolithic rock-cut churches of Lalibela, Ethiopia and the riverbanks of the Kumbh Mela in India. Stanford explores the historical and spiritual significance of these places of healing and reflection and discusses their roles as crossroads. Although pilgrimage is usually viewed as an individual’s escape from the everyday to refocus the mind and soul, institutional and national struggles for power have always had an impact on the way pilgrims experience their own personal journey. Guiding readers through the global history of pilgrimage, this thought-provoking book educates a new generation that may seek solace, clarity, and wonder by following in the footsteps of travelers from the past.

What does it mean to be a Catholic in today's world? What distinguishes the modern Catholic from anyone else? At a time when the Vatican provokes hostility by its opposition to contraception, abortion and the use of condoms in fighting AIDS, how many Catholics share its views? And if they don't, how can they in good conscience stay in the Church? These are among the many questions that writer and broadcaster Peter Stanford is addressing here. There is a whole spectrum of response in this entertaining and enlightening collection. 'Fascinating a surprisingly uplifting book.' Sunday Telegraph 'A hard-hitting book which criticizes as much as it praises it should be read by anyone interested in the phenomenon of organized religion.' Spectator

'This vivid and engaging book brings to life some of the most important moments in ancient history, moments that have shaped not only the politics and culture of bygone eras, but the institutions, thoughts and fantasies of our time.' Yuval Noah Harari (Sapiens) 'A bold and imaginative page-turner that challenges ideas about the world of antiquity.' Peter Frankopan (The Silk Roads) 'As panoramic as it is learned, this is ancient history for our globalised world.' Tom Holland (Dynasty, Rubicon)
Acclaimed historian and TV presenter Michael Scott guides us through an epic story spanning ten centuries to create a bold new reading of the classical era for our globalised world. Scott challenges our traditionally western-focused perception of the past, connecting Greco-Roman civilisation to the great rulers and empires that swept across Central Asia to India and China - resulting in a truly global vision of ancient history. With stunning range and richness Ancient Worlds illustrates how the great powers and characters of antiquity shared ambitions and crises, ways of thinking and forms of governing: connections that only grew stronger over the centuries as political systems evolved, mighty armies clashed, universal religions were born and our modern world was foreshadowed. Scott focuses on three epochal 'moments' across the ancient globe, and their profound wider significance: from 509-8 BCE (birth of Athenian democracy and Rome's republic, also the age of Confucius's teachings in China); to 218 BCE (when Hannibal of Carthage challenged Rome and China saw its first emperor); to 312 CE, when Constantine sought to impose Christianity on the Roman world even as Buddhism was pervading China via the vast trading routes we now know as the 'Silk Roads.' A major work of global history, Michael Scott's enthralling journey challenges the way we think about our past, re-draws the map of the classical age to reveal its hidden connections, and shows us how ancient history has lessons for our own times.

2,000 years of history in one riveting afternoon A country both admired and feared, Germany has been the epicenter of world events time and again: the Reformation, both World Wars, the fall of the Berlin Wall. It did not emerge as a modern nation until 1871—yet today, Germany is the world’s fourth-largest economy and a standard-bearer of liberal democracy. “There’s no point studying the past unless it sheds some light on the present,” writes James Hawes in this brilliantly concise history that has already captivated hundreds of thousands of readers. “It is time, now more than ever, for us all to understand the real history of Germany.”

Explores the often dismissed legend of an English women who, in the middle of the ninth century, disguised herself as a man and became Pope of the Catholic Church

The story of Catholicism in Britain from the Reformation to the present day, from a master of popular history – 'A first-class storyteller' The Times Throughout the three hundred years that followed the Act of Supremacy – which, by making Henry VIII head of the Church, confirmed in law the breach with Rome – English Catholics were prosecuted, persecuted and penalised for the public expression of their faith. Even after the passing of the emancipation acts Catholics were still the victims of institutionalised discrimination. The first book to tell the story of the Catholics in Britain in a single volume, The Catholics includes much previously unpublished information. It focuses on the lives, and sometimes deaths, of individual Catholics – martyrs and apostates, priests and laymen, converts and recusants. It tells the story of the men and women who faced the dangers and difficulties of being what their enemies still call ‘Papists’. It describes the laws which circumscribed their lives, the political tensions which influenced their position within an essentially Anglican nation and the changes in dogma and liturgy by which Rome increasingly alienated their Protestant neighbours – and sometime even tested
the loyalty of faithful Catholics. The survival of Catholicism in Britain is the triumph of more than simple faith. It is the victory of moral and spiritual unbending certainty. Catholicism survives because it does not compromise. It is a characteristic that excites admiration in even a hardened atheist.

The Reformation transformed Europe, and left an indelible mark on the modern world. It began as an argument about what Christians needed to do to be saved, but rapidly engulfed society in a series of fundamental changes. This Very Short Introduction provides a lively and up-to-date guide to the process. It explains doctrinal debates in a clear and non-technical way, but is equally concerned to demonstrate the effects the Reformation had on politics, society, art, and minorities. Peter Marshall argues that the Reformation was not a solely European phenomenon, but that varieties of faith exported from Europe transformed Christianity into a truly world religion. The complex legacy of the Reformation is also assessed; its religious fervour produced remarkable stories of sanctity and heroism, and some extraordinary artistic achievements, but violence, holy war, and martyrdom were equally its products. A paradox of the Reformation - that it intensified intolerance while establishing pluralism - is one we still wrestle with today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

In Dante in Love, A. N. Wilson presents a glittering study of an artist and his world, arguing that without an understanding of medieval Florence, it is impossible to comprehend the meaning of Dante's great poem. He explains how the Italian States were at that time locked into violent feuds, mirrored in the ferocious competition between the Holy Roman Empire and the papacy. He explores Dante's preoccupations with classical mythology,
numerology and the great Christian philosophers which inform every line of the Comedy. Dante in Love also lays bare the enigma of the man who never wrote about the mother of his children, yet immortalized the mysterious Beatrice, whom he barely knew. With a biographer's eye for detail and a novelist's comprehension of the creative process, A N Wilson paints a masterful portrait of Dante Alighieri and unlocks one of the seminal works of literature for a new generation of readers.
